

## Power Quality & Energy Management Product Solutions

Under contract with multiple manufacturers, Blanchard Associates helps put all of the pieces together' for the ESCO, MEP Engineer, Utility, Contractor, Facility Manager, OEM Equipment Manufacturer, & Industry Trade Professional. We welcome the opportunity to help support your product application, design, logistics and supply chain needs.

### MANUFACTURER'S SERVED:

For the most up to date list, please visit:

#### Submeters, SPD Surge Suppression, EMI/RFI, Power Factor & Harmonic Correction

##### **E-MON Submeters + Energy Information Management Systems ★**

E-MON D-MON by Honeywell, the leader in submeters: Revenue-Grade Electric, Gas, BTU, kWh kilowatt hour and Demand meters for load profiling, load shedding & energy cost recovery. Energy Information Systems comply with PUC Rule 18 for Tenant Billing, LEED M&V; Title 24 130.5 (a) Service Metering and (b) Load Segregation.

##### **Power Quality Products for IEEE-519 Compliance & Energy Savings ★**

Comsys patented ADF Active Dynamic Filtering technology offers unparalleled harmonic compensation, voltage regulation and surge suppression, power factor correction and load balancing, oscillation, flicker and resonance mitigation assuring power quality compliance and prolonged equipment life / mitigate warranty issues.

##### **EMI / RFI, Harmonic & Power Factory Correction Product Solutions**

EMI/ RFI filters, Power Factor Correction, Motor Bearing Protection, surge arresters, voltage stabilizers, and customized solutions. In addition to EMC filter solutions, Enerdoor has built a global distribution and research and development network that provides flat rate on-site CE Certification required by IEC and EN Standards.

#### Blanchard Associates Value-Added Products & Services Group

##### **Energy Management Systems: 3rd Party Products + Suite of Services**

From NEC required overcurrent protection for instruments and meters, to cabling and IOT devices, appliances and energy automation hardware, TBWC brings "all the pieces together". TBWC Suite of Services includes on-site consultation, facility audits, system design, application and post-install system support.  
[www.tbwcinc.com](http://www.tbwcinc.com)

#### Energy Management Products & Controls

##### **Optergy + Energy / Building Management Systems ★**

Optergy software that Integrates with BACnet & Modbus protocol devices to allow users to monitor, manage and control equipment within a building. With the ability to visualize and report utility and meter data in real time, users can view reports, alarms & energy data from a single tenant, building or a portfolio of buildings in real time.  
[www.optergy.com](http://www.optergy.com)

##### **Ultrasonic Water, Flow & BTU Energy Meters**

Products such as the Qalcosonic E4 ensures accurate consumption and time-of-use data billing across all pipe diameters. Next generation meters are wireless, low energy, static, no moving parts and self-powered. Up to 16 years battery life. Sensitive and accurate in low flows. NB-IoT and AMR, NFC, LoRa technology ready  
[www.axiomametering.com](http://www.axiomametering.com)

##### **Electrical Submetering for Building Management Systems (BMS) ★**

PowerScout series networked power meters are provide accurate kWh consumption and kW demand as well as all relevant energy parameters for diagnostics and monitoring on three-phase high-density or single-phase circuit installations. For all commercial, industrial, residential and retail facility submetering and load segregation.  
[www.dentstruments.com](http://www.dentstruments.com)

##### **IoT Solutions for Utilities: Water Meter Data Management Systems**

Software & integration services to support public, private and municipal water users. Identify and eliminate water leaks, thefts and inaccuracies. Capture metered and unmetered meters wirelessly. Systems supplied complete

##### **Clamp-On Ultrasonic Water, Flow & BTU Energy Meters ★**

Fixed, clamp-on, pipe mounted, ultrasonic flow meters, which deliver significant savings in installation cost & time. No pipe fitter or plumber needed. Sizes from 22mm – 180mm (1" to 6") OD. "Best Value" alternative to traditional inline energy meters, for management and cost allocation in facilities with shared heating and/or cooling systems.  
[www.micronicsflowmeters.com](http://www.micronicsflowmeters.com)

##### **Power Quality Testing & Consultation Services**

Prompt and effective technical electrical metering service provider. Whether troubleshooting a catastrophic failure or preemptive, i.e., a periodic facility "PQ Wellness" check. Advanced Metering technology and ability to analyze, understand and translate data into cost-effective solutions, improved efficiency results in a generous R.O.I.
